Location Solution

Senior Living

The Inovonics location solution allows you to easily upgrade your trusted e-call system to deliver precise floor and room location on alarm, improving your response times and staff efficiency, which can lead to better care and outcomes.

Advanced Technology for
Faster Response Times and Improved Efficiency

Advanced technology gets you to the right place, more quickly [1]
- Enables faster response times
- Supports better resident outcomes
- Makes more efficient use of your caregiving staff

Cloud processing of location data [2]
- Provides visibility to data across multiple properties to allow for continuous improvements to accuracy

Compatible with existing Inovonics-based emergency call systems
- Leverages existing network infrastructure
- Offers ease of installation
- Is scalable to deliver as much location accuracy as needed
    - Locators can cover specific rooms, zones or floors with industry-leading accuracy
- Certified for installation in UL 2560 listed emergency call systems

Packed full of functionality

An amazing amount of features in one incredibly small pendant

Locator
Leverages the EchoStream network to deliver advanced location information to the Inovonics cloud upon activation of a location-enabled pendant

Pendant Accessories

ACC680-BU
Magnetic alarm clearance card

ACC682-BU
Replacement wristband

ACC681-BU
Replacement neck lanyard

ACC684-BU
Replacement battery door

[1] Disclaimers

Location accuracy is a function of the quality of the installation, including thorough testing of the system both upfront and on an ongoing basis. Please follow all recommended best practices as provided by Inovonics.

[2] Disclosures

The location information is an enhancement to basic functionality and can only be accessed through an active subscription to that service. Without an active subscription, the alarm message will be transmitted, but the advanced location information will not be provided.
